

## **POST OPERATIVE INSTRUCTIONS FOR ARESTIN**

### **1 week after treatment:**

- Do Not touch the sites treated with Arestin
- Do Not chew hard, crunchy, or sticky foods (such as carrots, taffy, or gum)

### **10 days after treatment:**

- Do Not floss or use other tools to clean between the treated teeth
- Mild-to-moderate sensitivity is Normal. Contact our office if you experience severe pain or signs of an allergic reaction (Itching or Swelling)

### **Keep up with treatment:**

- Scheduling and keeping follow-up visits can help maintain control of periodontal disease.
